I sent her emails this morning from the train that she did not receive....my issue with Google was fixed by then and working fine...

Karyna, you may have an issue with iCloud..? (let us know if you are receiving these mails...I guess if we don't hear from you, we know you are having issues!)

If they were sent during the time Google had blocked your phone, they'll be delayed and deliver the next time your phone's Mail.app is opened & catches up.

If he's not getting these messages for example, it's not related and will require further exploration (might be on the iCloud side, for example).

Thank you,

Karyna says she has not been receiving my mails...I just looked and have been sending to her iCloud account...I have no idea if this is related to my issue with gmail or a coincidence =
