>> Hey guys. I went to PC Richards yesterday to pick out new appliances =o [REDACTED] I am having trouble finding a refrigerator which =ill fit the current dimensions of what's there. All the current ones =re 28" wide by 26" deep by about 65" high. I can't find anything that's =8" wide that isn't deeper than 29 inches, in which case it would stick =ut more than desired from the cabinets. I did find one however that's =7.5 wide by 24 deep, but 75" high, which is too high with the cabinet =bove the fridge. I didn't have a chance to specifically look, but =ondering if it's doable to remove the cabinet over the fridge so we can =it a taller fridge in the space? I'm sort of at a loss as to what to do =bout sourcing a fridge with the current dimensions otherwise.
