**Subject:** Track Lighting

I realized today we painted 11 P and didnt notice to replace the track lighting, now with everything new and clean in there, it looks old and grubby. I am going to look into which lighting places are standard for those sorts of things and get options tomorrow. Then Michael will just have to do a touch up.

Karyna and I also want track lighting in 8H and 10F. [REDACTED] what do you think about 10B? I will check 8A as well and see if there is currently in there, but I dont think so. I think it is always better to overlight than under.
