Subject: Re: lamp and internet issues

Hi Yoni and Merwin,

I just checked on the lamps in 7J. The standing lamp in the living room, that is closer to the large artwork, is working if you manually turn on the switch, but is not connected to the wall switch. I left that lamp on for you to see. The second standing lamp close to the entrance door is connected to the wall dimmer switch, but one of the light bulbs is off.

Also one of the bedside lamps is not working. </=iv> Merwin, could you please kindly address these three issues tomorrow=along with the internet issue:

1. Replace the non-working light bulb in the standing lamp close to the entry 2. Connect the second standing lamp, so that it is controlled from the dimmer switch, like the other one.
3. Check on the non-working bedside lamp

Thank you very much!

Karyna

Shanah Tovah Yoni!

<=pan>I just came by your apartment. I did not go inside, since no one opened=the door.
If you would like me to come back later today to take a look at the lamp, please feel free to call me at +16462438517 <=r>Otherwise, Merwin will come by tomorrow to check on the lamp and internet.

Best regards,

Karyna
