I was going to try and set up delivery of 10B furniture for June 26th, =hat's when painting will be done.
I'm debating either canceling the white dresser drawers for 10B(same as =1P, and putting 11P's in 10B and ordering a new lower one for 11P) or =ust using 11P's in 4M and getting a new low one for 11p.

sorry very confusing. I put together the attached look for 4M bedroom if =e went with white side tables and dresser..
what do you think??
