Hi Kim,  
Thank you for this updated quote. I'm wondering if you could have someone come over to the house to do a proper measure of the room before we submit this order for production? If I remember correctly, I don't think anyone has measured the room, but we were just going off of the floor plans. Is it possible to set up a measurement this week, then we can finalize the order?  
Thank you!

Hi Rich,

Marc leaves for Nepal this Friday and I will make sure he discusses expediting this order with our production manager.

Please call me if you have any other questions.

6TH FLOOR

did you have a chance to amend the paperwork?  
thank you
