Hi Kim,
Thank you for this updated quote. I'm wondering if you could have someone come over to the house to do a proper measure of the room before we submit this order for production? If I remember correctly, I don't think anyone has measured the room, but we were just going off of the floor plans. Is it possible to set up a measurement this week, then we can finalize the order?

Thank you!

Hi Rich,

Rich, we value your business. I know you are frustrated with our pricing and with Marc not responding to your emails. I have asked him to call you and apologies to you for this. I understand he has been in discussion with the mill to find out why our price is higher- it shouldn't be.

Marc leaves for Nepal this Friday and I will make sure he discusses expediting this order with our production manager.

I have worked very successfully with Sarah over the past seven years, and value Jeffrey's business. In these difficult times, we cannot afford to lose a very good customer through bad service and miscommunication.

Please call me if you have any other questions.

Sincerely,
