great, thanks
Any word from the plumber about washer/dryer?

>> Hey Andrew. Rich Kahn from our office suggested changing out the AC =nits in both 10B and 10F. If that was the cause of the leak into the =ood flooring, we don't want the same thing to happen again considering =e just re did the wood floors. Apparently one of the AC units in 10F is = 220volt (like the one I bought for my apt, but can't use due to the =lug not being the same.) we can move the one from my apt to 10F, then =ut a normal AC in my apt. Can we set this up for sometime this week. =m back in town tonight and will be in NY for a bit and would love to =ave a working AC in my apt. Thanks
