>>>> Hey Andrew. Rich Kahn from our office suggested changing out the AC uni=s in both 10B and 10F. If that was the cause of the leak into the wood floo=ing, we don't want the same thing to happen again considering we just re di= the wood floors. Apparently one of the AC units in 10F is a 220volt (like=the one I bought for my apt, but can't use due to the plug not being the sa=e.) we can move the one from my apt to 10F, then put a normal AC in my apt.=Can we set this up for sometime this week. I'm back in town tonight and wil= be in NY for a bit and would love to have a working AC in my apt. Thanks
