Good morning, Carluz,

The island of St. Thomas seems to be out of the Voss Still Water in the 375 ml glass bottles Mr. Epstein prefers. The only distributor who distributes to all the stores on island is out and does not expect another shipment until February 15. Mr. Epstein is scheduled to arrive on Monday, February 4. Is there any way you can acquire six cases of this water and put it on the plane with Larry's permission? I appreciate any help you are willing to provide.

Thank you,
