Subject: 2G

Hi Andrew, I had 3 stoves delivered today, one was for 2G. when the guys went to install it, they said the emergency shut off valve for the gas stove was behind the dishwasher, thus they would not install it due to it not being up to code. they said we need to have the shut off valve moved to behind the stove before they will install the new one. I'm saving 3 microwaves delivered by PC Richards on Tuesday and it would be good if they could install the stove for 2G the same day. do you think it would be possible to get this fixed by Monday?

Pls let me know so I know whether to schedule delivery of 2G stove for Tuesday as well. thanks.. and have a great weekend.
