I spoke to the employment agency that GM uses www.regaldomesticsinc.com <<http://www.regaldomesticsinc.com/>>. She had contacted them in the past about a couple for Zorro, and apparently this is where Janusz came from as well. She is asking if I can send her a job description and salary range for the couple. Would you be able to help with the job description, and I have no idea what salary range would be either!
