Hi =ita,

Please see the attached notes I've made on the plans I =hink it makes sense to have the fridge towards the opposite side of the =itchen closer to the entrance because of the direction the door opens. = don't like the concept of the tall pantry having the doors open =owards the outside of the kitchen. Is it an option to put a tall pull =ut pantry sort of thing there instead, then the fridge beside that?. =lso, I moved the trash to the opposite side of the kitchen so it can be =ymmetrical under the sink. I would also like it enclosed above the =icrowave. Please let me know if all my notes make sense and if you have =ny questions. thanks [REDACTED]
