Hi Rita,

Please see the attached notes I've made on the plans I think it makes sense to have the fridge towards the opposite side of the kitchen closer to the entrance because of the direction the door opens. I don't like the concept of the tall pantry having the doors open towards the outside of the kitchen. Is it an option to put a tall pull out pantry sort of thing there instead, then the fridge beside that?. Also, I moved the trash to the opposite side of the kitchen so it can be symmetrical under the sink. I would also like it enclosed above the microwave. Please let me know if all my notes make sense and if you have any questions. thanks [REDACTED]
