Subject: my new apt samples.. question..

Anthony gave me a new wood floor sample he had made to try and match the one I found. I've attached photos of his sample next to the original. I think I prefer his sample to the original.. it's not as pink and it's almost a perfect match to the kitchen cabinet samples I like. If we go with Anthony's sample they can have the floors installed by Aug 10th. If we go with original sample, it will be a 10 week lead time. Do you like Anthony's sample?
