Good Morning

I spoke to SBDD today and as of this date, all is still on schedule to haul Big N on the 27th of this month.

I also Spoke to Bobby Lamere this morning before we left the dock. He has not submitted his request for the 50% deposit but intends to do so today or tomorrow as time permits. He informed me that material was ordered to facilitate the manufacturing of the cylinders and he anticipates a little over a week to recieve the material from when it was ordered.

The short answer to your question, is, It is reported to me that all is in order and on schedule for the Big N haulout.
