Thanks Janu=z.. from the original set of photos you sent me, one of these units is mark=d with a post it with a number 3 on it. It looks like it opens from the fro=t panel, verse from the top like the 2 in this email. We were hoping we cou=d use one of these as a media center on LSJ, thus would need it to open fro= the front. Can you have a look when you're there today and see if you can f=nd the one which opens from the front and take the measurements of that one=and also see if it can open with the front panel coming outwards, versus in=ards like the photo shows. I can't tell from the photo if that hinged panel=on the bottom comes up to enclose the space. thanks

Hi [REDACTED] I have measured some of these units which are unpack. They are almost t=e same, the difference is in 1 to 3 inches. One of them measure - 56 inches=length, 21 width, 43 hight, another 59 - 21- 44, or 57-22-44. Some pictures=how they look
inside.<DSC_1027.jpeg><DSC_1028.j=eg><DSC_1029.jpeg><DSC_1030.jpeg><=span>

Janusz,

When you are next in PB, can you pls go to t=e storage unit and measure one of the units marked 2, 4, 5, 6, 7 or 8. (If t=ey are all the same size, which is looks as if they are, I only need the me=surements of one of these units as well as photos of what it looks like on t=e inside. We are trying to see if we can use one of these pieces on the isl=nd for a media storage cabinet.

Thanks..

Do you by chance still have the photos=of the Syrian pearl furniture which is in the storage unit in PB? Do you kn=w what's left in there? [REDACTED] mentioned there were a few pieces sent to the=ranch awhile back. JE wants all the pearl furniture in storage there to be s=nt to the ranch. I noticed a few pieces are out of the crates.. do we still=have the empty crates by chance that they came out of that we can put them b=ck in for shipment?
