Great! The top one looks like the same type of rug as we used in the chill room. Do you know if its the same one, different color? Do you have a pic of the backing?

I met with the person who [REDACTED] usually deals with at ABC to look at the wall to wall options that we could have made into a 15' x 17' rug.

The first image is a wool rug , very white and soft but takes 3-4 months to be custom made.

In the second image there is a synthetic rug on top of the wool one. It is not white white but was the whitest they have. It would take 3-4 weeks to make. They would have to use two 15' wide pieces with a seam to create a 15' x 17'. I have requested a sample which will only get to me next week.
