Subject: Re: Quote from Hatteras - Stretch Canvas

Hi Bill,

We are finally ready to print this! I have attached another link to the dropbox file titled "5PalmsFINAL".

This is the same file as the "5Palms3X" I sent you last, but I made the dimension of the photo 71"x87"(instead of 70"x86"). The opening of the frame I'm using the photo in is 70"x86", but it's an old frame and I wanted a little extra of the photo on the edges in case it's uneven in places.

Your quote shows the total size as being 74"x90", but I want to make sure you aren't going to print the actual photo that large, but it will have blank edges around it so I can have the canvas stretched. Can you pls

specify on the quote that this is the case? It doesn't read that way to me. Also, do you think 2 extra inches in each side is enough to properly stretch the canvas? I think it may need more extra considering it's size. Can we go up to 4" extra blank material all the way around?

Thank you very much!
