hi [REDACTED],

..i got the samples you left for me with the doorman and i went upstairs and saw your apt 11J.. i thought maybe i can work on the samples there but it was too messy and people are working in there..., they said they might be done in one or two weeks.. it would be g=od if they prime the walls too..

i went to jeffrey's house o= 71st st and i saw also the finish at the gym room on 4th floor with those ge=metrical shapes..like different shades of the same color..

i think i wil= work on the samples at home.. i might need to buy some venetian plaster an= some pigments..

i will send you pictures of the samples.. and may=e i can start next week if the workers will finish one room..

&nb=p; thank you,

Hi Ion, that would be great. I le=ve town on Sunday morning and won't be back until the 28th, but you could w=rk on some samples for me next week. I have a piece of leather which I want=to match the color for the bedroom; a very dark taupe color. I can leave it=with my doorman for you to collect so you can work on a sample. My new apt i= 11J. You are welcome to work there is you wish.. it's empty and still a wo=k site... up to you.

For the living room I want something v=ry neutral with perhaps a slight design in it kind of like Jeffrey's gym in=NY on the 4th floor.. not sure if you've seen that room or not. The walls a=e an off white color but have a bit of a geometric design with different sh=des of the same color. I can send pics as well

I will also l=ave you with the sample of the wood floors which will be going into the liv=ng room so you can work with that coloring. Thanks and welcome back!
