Subject: Re: Shower shelf in 14G dimensions

Hi [REDACTED], as I mentioned before that the depth of the shelf is as is at the jobsite because there is a pipe behind it. My suggestion is to make the shelf wider like what you have 5" or more. It will be coming out like 2". We will make it a solid sile stone 3/4" thick. White or beige or if you cold pick the stone sample and we will get it for you. Penn Sent from my Verizon Wireless BlackBerry
