[REDACTED] excellent images! The fact they are cropped is OK. Excellent =uality, too...will be good for the =ankings!

Is it possible to get a quick description for each? From there, our =riters will be able to make relevant long =escriptions.

Will await for your additional photos for [REDACTED], =oo.

Now, back to other sides for [REDACTED].

If you have some images regarding your trips it would be good too (we =ay set-up a website dedicated to [REDACTED] and her =ravels).

As well as pictures of you (just for the About Us pages at this =tage) – I need my guys to push back ASAP the Images Results from =oogle.

Finally, please try and start making some videos from now =landscapes, your design, nice architecture you may see, your travels, =omething you may like etc.)

Thanks!

Guillaume

Here =re a few images to use for [REDACTED]. The owner of a lot of the =roperties I've worked on doesn't feel comfortable showing photos of =omplete rooms, so thus that's why they are all cropped, =tc..

I'm hoping to =et some full room shots of different properties later this week and =ill also have some more cropped ones a bit =ater..

Thanks!
