Work wise, I help manage residential properties which involves =rganizing staff schedules, looking for and interviewing new =ousekeepers, chefs, purchase and source items needed for the house, =dishes, flatware, furniture, art) I also do flower arrangements for the =ouses, go the flower district, purchase the flower and do all the =rrangements. I do interior design work for the houses I manage. [REDACTED] I'm =urrently working on renovating several corporate apartments in NY as =ell projects in the Caribbean and Paris. I can work on getting proper photos of the apts I've worked on, my =lower arrangements, etc.. I'm not sure I will be able to submit photos =f the larger houses I've worked on due to the client being very =rivate, but I will ask them.

I don't currently have a website of any kind, but need to work on one!

Articles that I know need to be pushed away:

When you search Google for "[REDACTED]", under related searches at the bottom, one of the them is "[REDACTED] palm beach"

Ideally, it would be good to get rid of those related searches, but not sure if that's possible.
