There is nothing for them to do r=ght now in living room.

I got the sample. I think it loo=s really good..I may even go a tinge lighter, but want to see the sample=in the daylight, I only saw it at night. I would like to wax the living =oom, but not bedroom.

..i was thinking.., wouldn't be better if the workers =ould concentrate to the living room so i can i can do the bedroom this wee=? in the mean time they can finish the living room and then they can paint=the closets in the bedroom and i can do the living room. in this way i thi=k it would be faster and besides i dont have anything to do now..

=3Bi can prime the bedrom and do couching..it would take like one day..not =ne week..

what do you think?

thanks,

ps. i left the sample with the doorman.

&nb=p; i didn wax the sample..i didnt have wax, ..it woud be same =ust shinier
