The top for the bathroom vanity should be Caesarstone Pure White 1141. I will choose the sink on Thursday unless you can send a photo of the larger sink and tell me how much room would be left on the sides of the vanity top if I were to use this one?

Just checking on the glass shower door. I marked what height the handle should be with blue tape. I also want to make sure the handle is horizontal and as long as possible that will fit on the door.. I'm guessing it can be 18"-24"? It should be just the standard chrome shower door handle. I'm not sure about the saddle. I will need to have a look when I'm there on Thursday. Thanks!

> Ok thanks for your quick response. The bigger vanity sink is ok. It will fit the faucet at the back. What kind of stone top do you want. Do you want the same stone like the kitchen? Since we are doing same stone for your shower shelves like the kitchen, we can use the same stone for the top. Then also the saddle we can use the same. Please advise.

> [REDACTED] will be taking the sink over to 11J. I'm not sure yet which bathroom sink I will be using, I need to see them in person first. The lights I also need to see first. I ordered them just so I can see if I like them, and which one I like; not sure that I will even use them, but wanted to see them in the space as an option. So please don't install any light fixtures yet.
