hi [REDACTED],

sorry i couldnt get to your building again, but was i=possible to cross the bridge. i drove today to queens, i thought it would be=easier if i take queensboro bridge at 59th st in manhattan..but it to=ks forever to get to queens boulevard from my place, which leads you to que=nsboro brigde, and after it took me 10 min for one block on queens boulevard, i gave up.. so i went back. besides, i didnt have enough gas and all the g=s stations were out of gas..

wouldnt be better to wait untill mon=ay? maybe the subway sistem will be better. but anyway, if in the meantime i=can get to manhattan i'll let you know, eventually i can leave the sa=ples with your doorman.

maybe we can even start your apt m=nday if the workers are done with any room

sorry again,
