What are the shower fixtures? Shouldn't all the fixtures match? Shower, tub, sinks?

- 1.the three vanities need to be top mount like the ones doug spec'd
- 2.the tub fixtures should be deck mounted like doug spec'd,including the hand held shower.
- 3.we have all the steam and shower fixtures.

the wall sconces for the three vanities(4 matching for the two vanities in the bath area, and 2 for the powder room vanity.) are also outstanding along with the bedroom lighting

Hi Gary,

A few questions about Je bathroom fixtures.

Will the sinks need wall mounted fixtures, or basin mounted? Is it a vessel sink or recessed? Also for the bathtub.. should it be wall mounted or basin? Do you also need fixtures for the steam room? Does it need to be special fixtures for steam room, or can it match the ones in the shower?
