Yes, that's what I thought too, 3 smaller ones.

When I sent him some options, he said they were too small and to check the sizing with you. I will discuss with him this week when I see him. Thanks!

you need to subtract 8" from the 5'-6" tables(4' each) or close the 3'-11" space down.
also I thought Jeffrey mentioned he might prefer three smaller tables.

I've attached the measurements of one of Zeff's kitchen plans for the dining tables.. I just want to make sure these dimensions of the overall area are all still accurate as I'm looking to buy the tables and want to make sure I'm buying the correct sizes! thanks..
