Mr Epstein would like to go with O=tion 2 for his master bedroom just like the blue sample. I just want to con=irm the color code though.. on the back of the sample it says 1442,(pls see=attached) but on your quote, you put 1015 for the color code..

Can we also please get a cad of t=is rug? Thanks so much!

Attached is the quote for the Mas=er Bedroom. However, I only have 2 qualities written down that he lik=d. There was a 3rd white wool broadloom but I thought he was just usi=g that for color reference.   I could be wrong though.....l=t me know if you need me to quote the wool out as well.
