Good morning Brian,
I spoke to my client, and he likes the work of David in the examples of =he panels you emailed to me. He is wondering if he would be willing to =ake 40 panels for $5,000?
Thank you for your help,

████

>> I am assuming your clients are after the panels that are on the =eiling in the Haus Tambaran at the Met.  These are made on Sago plathe =nd I do have a few pieces.  They are not in great shape.  However the =anels are easy to get as they still use them.  It would just take time =o get them here.   A elderly man called David from the village  paints =hem.  David does good work.  I will attach photos of several photos of =avid's panels I put in a show and sale in Berkeley recently.  =nfortunately/fortunately they all sold.  I could ask David to make 30 =anels.  It might be better to give the measurements of the area to be =overed as the panels vary in size.
>>
>> There is also a younger man call Nanias who does beautiful painting =nd I will include a few pictures of his that he painted on cardboard.   =e can also do the panels.  Nanias knows all the stories behind the =aintings and can write them down.
>>
>> It would take about 6 months to get the panels to the USA.  They =ould cost you approx $200 each depending on the freight.
