Subject: Re: NYC next weekend?

I would so love for you to stay with me, but Story just moved all his stuff into my apt today. JE asked him to move his things out of his by tomorrow. I anticipate it being quite a mess trying to sort through everything and make room for it all. I had to take all my winter clothes to JE's to make room for his clothes. Kinda annoying. Not doing much in Paris. I'm so jet lagged and out of it! When is a good time to see you? Friday night, Saturday?
