Thank you Kim! The current slightly off white is perfect for all the guest room rugs. A whiter color would be better only for the master bathroom rug if it's possible. If not, then the current white is just fine. I thought I would ask in case!

Everything is a go and in production! I also instructed them to use whitest yarn.

Thanks!

Hi Kim,
just checking if these rugs have been started? Do you have everything you need from me?
Also, I just wanted to confirm that the white color we are using in the rugs is the whitest color available in this material?

Best,
