Sorry for the late reply. I've been traveling out of the country. I will make sure my client is aware the light is not the brightest and let you know what he says and if he will still want to use the lamps as bed side lamps. Perhaps he will only want one in the end. I will get back to you! Thank you...

Hello, [REDACTED]

I tried to call you but you were not available.

I see from your email that you are planning to use the Jellyfish lamps as bedside lamps. There is no doubt they will be gorgeous in that setting, but you and your client should be aware that they are not intended as reading lamps. They come with a 40 watt light bulb and a two way switch (one dim setting, one bright). They are ok for light reading, such as thumbing through a magazine, but not recommended for heavier reading. It is possible to substitute a brighter fluorescent bulb, but the light tends to be harsher. Let us know your client's preference.

We would prefer not to provide two lamps on approval, since both would be made to order. What we can do is ship one lamp within 45 - 60 days and the second 30 - 45 days later if your client is satisfied with the first one. If this is acceptable to you and your client, we would simply adjust your original order from one to two lamps with the staggered delivery.

Please let us know what your client would like to do,

Jim

Hi Jim,

I would like to go ahead with this order. Since there is such a long lead time, and I ultimately want 2 (for bedside lamps) I would like to order an additional lamp as well. Can you add on another to my order, or should I put in a separate order on line?

Also, since it takes so long to receive, I want to make sure this is not considered a special order and I will in fact be able to return them if need be, although I don't foresee this being the case.

Best,
[REDACTED]
