Hi [REDACTED]

I just contacted our warehouse in France, it was shipped July 28th. We should have it in New York sometime this week, in which case it will be forwarded to your shipping address.

I will let you know when it arrives and thus when I have tracking info from our warehouse here.

Hope you're having a nice summer! Let me know if you need anything else.

Best,

Brandon

If we could do one piece 9 yards, and one piece 8 yards that would be great. Can you please let me know what method of shipping you will be using and send a tracking number when you have it? Thank you!

Hi [REDACTED]

Our mill has just notified me that the peice that they were going to ship has a cut in it. They do have 2 other peices that are unharmed, the only issue is that one peice is 16.7 yards and the other peice is 13.12 yards. Can you please advise if there is a way you would like your peices to be (i.e. 10 yards from one peice and 7 yards from the other) or if there is a better way you would like it to be broken down.

Sorry for this inconvenience.

Best,
