Subject: PB pool measurements
Attachments: photo.JPG

Here are the measurements for the steps in PB pool. JE measured them, but they don't quite correspond. The total width of all stairs together is 81". The first stair is 38" wide, and all the rest of the stairs are 13" wide. (this is where the math doesn't add up) The first and second stair are 10" tall, the third stair is 11" tall, and the fourth stair is 12" tall.
