Subject: Re:

just =poke with the varnish company, and they directed me to their website =here I can print the safety info from the website stating it is not =flammable.
I will try and send it again through the post =ffice today over night. I think it's easier through the post office as =edex requires all the international stuff..
will let you =now, otherwise, we will have to go with =edex.

after were done with the =all

Can you give me a call to discuss that flammable =tuff
