**Subject:** Re: Second Valid passport info

thank you very much. I have a question about the "Request for a Second Valid Passport" page. My employer and I need second passports because we are constantly traveling to countries which require visas and many times I don't have time to get visas for all the places we need to go in time. I noticed even if I choose "Type II", the validity of the second passport is only good for that one trip. I need a second passport to be valid for many trips in the upcoming years. Most of our trips are last minute and include many destinations such as an African trip consisting of Sierra Leone, Mali, Gabon, etc., where we need visas for all of these countries, but not enough time to obtain them before traveling. Is there another option where the passport is good for longer than the duration of only one trip?
