Subject: Fwd: Wood floor

Hi Anthony,

I had left the samples with my doorman last week. I can bring the one I'm interested in because it's quite light, but the others are a bit heavy. Would it still be possible for you to pick these up from my doorman? I can come to your showroom about 1:30pm. Does that work for you?

Hi Anthony,

Sorry it took so long to get back to you!

I am leaving town today for work, so will leave the samples I borrowed with my doorman if you are able to pick them up. The one I like the most is the Engineered Ash Alpine White Item Code: EASAW4341113. The only thing that concerns me is that it will sound a bit "plastic" and cheap when you walk on it. I'm not sure if that's just because it's a small piece and slightly glossy and it will be better when a whole floor is installed. Would you have any idea?

If I could also get a quote for this floor too. Thanks so much,
