>> Dear Brian,

>>

>>

>> I am assuming your clients are after the panels that are on the ceiling i= the Haus Tambaran at the Met. These are made on Sago plathe and I do have=a few pieces. They are not in great shape. However the panels are easy to=get as they still use them. It would just take time to get them here. A e=derly man called David from the village paints them. David does good work.= I will attach photos of several photos of David's panels I put in a show a=d sale in Berkeley recently. Unfortunately/fortunately they all sold. I c=uld ask David to make 30 panels. It might be better to give the measuremen=s of the area to be covered as the panels vary in size.

>>

>> There is also a younger man call Nantias who does beautiful painting and I=will include a few pictures of his that he painted on cardboard. He can a=so do the panels. Nantias knows all the stories behind the paintings and ca= write them down.

>>

>> It would take about 6 months to get the panels to the USA. They would co=t you approx \$200 each depending on the freight.

>>

>> I hope this is of help.

>> Best
