great, thanks.

No problem on charging my card for the balance.

I am just waiting on that piece to come in. It had to be ordered. When it comes in we will install it.

The molding is #341 from Dykes Lumber (44th street between 8th and 9th). You can pick it up yourself. It would be cheaper for you instead of me charging you to buy it and deliver it.

Are we able to get the balance for the floor?

Thanks

Anthony

Hi Anthony,

Just checking in again about your guys adding a molding at the bottom of my bathroom and bedroom door to prevent the wood floor from splintering further. This is what they recommended when they came to look at the splintered piece of wood flooring.

Also, would it be possible to get 10 extra feet of my baseboard? I want to use it along the bottom of the window area in the living room. Is this something I can get from you, or should I go straight to the people who you get it from?

Thanks!
