Hey sweets. I made a few new notes. This is the final design! Do you mind me=ting with Penn today? Is it OK for me to give him your cell?

I would like all 3 grates to be on tracks, with the one on the left to be on=the most recessed track. He should make the grates and frames as thin as po=sible obviously so it doesn't make the tracks too wide.

Thank you love. I will also email this to him, but I think it's better for h=m to see in person again and for you to reiterate. Muah!!
