Jeffrey

Between =hunderstorms today,. I was Able to get 3 test flights in,. Ride feels =ery good,. But the computer blade track box indicates we can get a =etter ride,. I figure couple more flights tomorrow and I should be =one, and return to service, tomorrow afternoon.

May be =est for me to wait until sub-Tropical depression 92L moves away from =assau and south Fla,. Maybe depart Sunday to STT,.

Once = get past Bahamas, (approx 300 miles) satellite looks pretty good to =t. Thomas.

I'll keep watching the =eather,,

Thx
Larry
