When I verify the email address it takes me to other screens asking if I am u=ing this kit in for myself or someone else. I can click on "someone else". T=en next screen asks me for the persons name... I don't know Jabor's last na=e. I know it starts with a "y". Next screen asks for his birthdate which I=don't know. It seems to me I DO need to fill this stuff out in order for th= kit to be processed. Please let me know if you wish me to merely confirm m= email address or fill out the rest. I have already confirmed my email addr=ss so if this is all you need it is complete. I am heading to Hartford for a=basketball tournament so away from my computer but have my cell.
