Dear Jabor,

I am excited to welcome you as a new customer. You have joined over one mill=on people who have taken this important step in learning more about their g=netics.

While you are waiting for your reports, I wanted to let you know more about 2=andMe and what makes us unique.

I co-founded our company in 2006 for two main reasons:

First, to empower you, the consumer, with more information about yourself. I=want you to learn more about who you are, where you are from and what you c=n do to live a healthier life through the information you learn from your D=A.

Second, to accelerate genetic research on a wide range of health conditions f=om Parkinson's disease to lupus to asthma. Our research team has made hundr=ds of discoveries by analyzing the genetic data from customers that have co=nsented to participate in research. We hope you will consider joining us in=this important research effort.

I want you to know that we are here to answer any questions you have during y=ur 23andMe experience. You can contact us here
