Subject: Re: Contact Us Requested

Hi Bennett,

Just wanted to check in to see when I can expect the photos of the tree slabs which will work for a picnic table 8 feet by 30 inches with 2 matching benches. My client was asking, so I know what to tell him. Thanks so much, [REDACTED]

Hi...

We have dome similar tables with benches. All of out slab tables are custom made. Normally, we send pictures of slabs, so that you can choose the one you want. We would be using Monkey or Mango wood for that climate. It works quite well.If you have a design in mind for the benches , we can match any picture you send, or we can use our design that matches the table. The cost for a 7ft table, and 2 benches , delivered, will be \$4200

Thanks
Bennett

Request:

I'm interested in getting more information about a slab table with 2 matching benches to be used outside a covered area in the Caribbean. It would need to be a wood that would work well in a hot wet environment. Do you have anything like this in stock, or would it need to be custom made? It would need to be about 6-7ft long and about 36" wide. Thanks.. [REDACTED]

Thank you,
