Subject: J. Epstein

Hi Dan! I have a quick question for you from Jeffrey. He has a sculpture =f an archer on his island which over looks the sea and he wants to put = laser in it's bow to have a laser beam going out from the bow across =he sky. He wanted to see if you could recommend a good type of laser to =se for this? I tried to do some research on lasers, but it's quite =confusing! Any input would be greatly appreciated! Thanks so much!
