Subject: Yahoo account

I've set up a new account on Yahoo for you, but it is becoming almost impossible to get a reasonable user name, I must have tried 100 combinations, all to no avail. I ended up getting [REDACTED] I hope that will be ok.

Your password is [REDACTED]

To get to the mail center at yahoo, go to mail.yahoo.com

Marc

I set this up as the free account, but can upgrade it to 100 megabytes for \$60 per year. Pls advise.
