Subject: GIB engine

Dear Ms. Maxwell:

Per our conversation last night, the GIB will take Mr. Epstein to TEB Sunday night and then reposition to Millville NJ. The engine change will begin Sun. night depending on arrival time and be completed by Tues April 15th. PM. The airplane will be repositioned back to TEB Tuesday PM.

Also per our conversation enroute to Brazil, the dates that I had given Steven for holiday were June 7 through June 18, we are planning to travel out west with the children during this time and I would love to show them the ranch for a couple of days if at all possible.

Sincerely:
Larry M.
