Subject: Thank you

Hi Ghislaine

I had a great time talking at lunch today....and I just wanted to thank you. I love your perspective on life and people. You are so refreshing, insightful, and most importantly, honest with yourself and others. I admire that and I put myself in the same category (albeit, with a boring suburban life).

I will be contacting some individuals this week to help you. I hope it will work out. Please do not hesitate to contact me for anything, anytime. I look forward to talking and seeing you again.
