Dear Ms Maxwell,

You had requested that we get further estimates on the F3500. The Maaco estimate (\$4119.86) is still the cheapest that we can obtain from 6 companies.

I have attached a number of photos showing you the extent of the damage.

The F3500 is very sound mechanically but unlike the Dodge which only required paint work there is a great deal of panel work.

Please note that we have spoken to all staff, regarding vehicle care and that they need to be more responsible for the vehicles that they use.

Regards  
Karen
